

Penis Enlargement Products

You may feel annoyed when you start looking for a reliable **penis enlargement product** as there are many choices accessible nowadays. All the means - patches, penis extenders, pills, exercises or surgery - are stated to carry out one and the same function - that of increasing penile stamina and size, and, hence, satisfaction from the intercourse.

How can you find the best penis enlargement product? You are able to do it when you examine carefully the way they affect the particular person and what they finally deliver to the customers. And their real influence on your body will astonish you. They're different and have completely different impacts on your well-being and body.

Penis Enlargement Pills

Let's start with the **penis enlargement pills** which are expected to make a certain effect on male body. They contain pure components that create the lengthening impact.

They also have a real impact on your energy and sexual pleasure intensification due to their aphrodisiac effect. There are other benefits of penis enlargement pills and their components:

1. Damiana - lengthens orgasms, makes your sexual features better.
2. Tribulus Terrestris - helps you with sexual energy and gives you a boost of energy.
3. Epimedium Leaf Extract - works as a libido enhancer.
4. Red ginseng - is a widely known aphrodisiac, an energy source and a very good method to solve some erection problems.

Penis Enlargement Patches

Penis enlargement patches consist of the same ingredients as penis enlargement pills but provide them straight into blood with the assistance of a transdermal technique.

Penis Enlargement Exercises

Jelqing is widespread among the many men of the Middle East countries. For many centuries men of those nations practiced these **penis enlargement exercises**. You need to do about 150 exercises and it takes about 20 minutes.

These penis enlargement exercises are usually not difficult, but they will add about 2 inches to your normal penis size. This penis enlargement product still has a disadvantage: it solves the issue only for some time. If you stop regular exercises you lose your gain.

Penis Enlargement Surgery

Like any surgery, **penis enlargement surgery** poses threat for the patient. The surgery of this kind known as phalloplasty and it contains only a surgical release process of cutting the suspensory ligament and enlargement of your penis. It can add from 2.5 to 4 inches to your length.

On the one hand, this is a simple surgical procedure, on the other hand penile surgery poses risk and the man can lose the ability to get an erection because of the lost support for his penis caused by suspensory ligament damage. One more unpleasant thing that can happen is fatty deposits which may be built up underneath skin; penis will lose its appearance.

Penis Enlargement Extenders

Penis enlargement extenders or stretchers are effective penis enlargement products and the results may be seen as quickly as in 7 days after you begin using one of them.

These gadgets can enlarge your organ naturally. Furthermore, the result will last forever. Penis extender will make your penis 30% longer and more voluminous because it stimulates the natural reproduction of tissue cells in your penis. Using this method for about 6 months a man is able to enhance sexual performance with longer erection and correct penile curvature up to 60%.

Best Penis Enlargement

While patches and penis enlargement pills allow higher sexual experience and improved erection, penis extenders can be used for penis extension. Penis extenders meet CE standards, they are accepted by doctors. They're designed from Medical Type 1 supplies, which proves that your body will not experience any harm at all.

So, the safest and most effective penis enlargement product that can enlarge your penis by 3-4 inches permanently is a COMBINATION of penis pills and penis extenders.
